

Secure Storage Systems

A storage solution for your home offering the ultimate protection against theft!

Lock and leave knowing your valuables are protected!

Finally a storage solution for your home that not only helps you reduce clutter and tidy up your space, but offers the ultimate protection against theft.

The Secure Storage System is the most versatile storage unit on the market, able to integrate into any aesthetic setting whilst providing the highest level of security for your valuables and personal belongings.

It's clean and efficient design will bring clarity and simplicity to any space in your home. It can be installed as an individual cupboard or standard unit sizes can join together to create the width you require. The depth and height of your unit can also vary dependent upon your available space without compromising the strength and security of the unit.

Your Secure Storage System is further personalised to your needs with a wide range of fit-out options – like shelves, drawers, troughs, hooks and pegboards providing additional order to your secure space.

The Secure Storage System is efficient and versatile, able to adapt to numerous spaces and applications:

- ✓ Convert your garage to hide away your work bench, secure your gardening and work tools or store your golf clubs, fishing equipment, bike or your other expensive sporting goods.
- ✓ Create a new space in your home or office to protect your valuables and personal belongings.
- ✓ Add additional security to existing spaces or shelves in your home.

✓
This Secure Storage System is proven, certified to AS/NZS 3809:1998 Safes and Strongrooms.

How does it work?

Security and Strength

Installing the interlocking curtain

Not only does the system look great in your home and make your life neat and tidy, it is also very secure.

The secret to the Secure Storage System is the **Hand-E-Shutter unique patented design** with the interlocking curtain and tracks that locks the unit together. Like armor-plating, each section creates flexibility, strength and security for the next providing defence against leverage and blunt-force attacks.

And when it's time to close up the system, the lock engages locking bars into the metal guides on both sides of the unit and ensures your valuables are protected against theft. The system also comes with a specially designed heavy duty lock cover for added security.

Whether you are wanting to secure your valuables, hide away your personal belongings or tidy up your space, this device is for you.

Secure Storage Systems is a storage solution offering you the ultimate protection against theft!

Tried and tested, the strength and security of this system is proven:

- ✓ Able to withstand in excess of 500kg of force without the curtain disconnecting from the tracks.
- ✓ Over 40,000 installations throughout Australia, New Zealand and the greater Pacific Region in the last 15 years.

Sizes: 900 x 2100mm (wxh)
